A Report on an address on the Launch of 5G in India

On October 1st, 2022, an address on the launch of 5G technology systems in India was given by Narendra Modi, the Prime Minister of the Government of India. The address was held in Pragati Maidan, New Delhi but the address was also available for online attendance. 14 students from PTVAIM's IIC attended this online address lasting from 11:00 am to 12:00 noon.

He announced the launch of the 5G systems in India with the first one being set up in Pragati Maidan, New Delhi. He talked about the progress India has made and how with 5G, India matches the global standard for Telecom technology. He reminisces about how the data industry used to be and how much it has changed and grew in the previous years.

He talked about self-sufficiency and how the mobile manufacturing industry has changed in the last 10 years. He spoke about the way the elites of the country felt with digital was first introduced and about all the trouble the digital industry has overcome in India.
