

Skill development workshop - upscaling of waste products

Objective:

- To sensitise students about how to upscale waste products and turn it into marketable business.
- To sensitise students about opportunities to do business in domain of waste management.

Benefit:

- Students learned to upscale waste products and turn it into marketable business.
- Students came to know more about opportunities to do business in waste management.

Description PTVAIM'S COEI organised skill development program on 20th December and 21st December 2022 from 10:00 am to 2:00 pm at PTVAIM's COEI facilitated by Mrs. Deepali Samant. There were 7 students' attendant the workshops.

Report on skill development workshop - upscaling of waste products.

PTVAIM'S COEI organised skill development program on 20th December and 21st December 2022 from 10:00 am to 2:00 pm at PTVAIM's COEI facilitated by Mrs. Deepali Samant. There were 7 students' attendant the workshops.

Mrs. Deepali Samant asked students to bring few materials which was needed to make articles. She commenced the session with her introduction. She started explaining how to make articles. She also showed few articles and photographs of articles which she made out of waste products. Initially she gave students instruction on how mould it clay should be used in what amount and what texture it should be used and how fast it dries up once it is mixed. Students were going to make article out of Coconut shell. So, first step towards making that article was brushing off the hair on coconut shell. Students learned how to brush off the hair on coconut shell. Mrs. Deepali Samant also showed how mould it is applied on coconut shell. Once it dried, Mrs. Deepali Ma'am asked students to try their own designs but while keeping instructions in mind. Students learned to design, Mrs Deepali Sawant helped students in designing. Day 1 of session ended with students leaving their articles to dry up.

On 21st December 2022, Day 2 of session started with students giving finishing touch and designs to their articles. Mrs. Deepali Samant also helped students in giving finishing touch to their articles. Soon as the articles dried up, every student started colouring their product. Mrs. Deepali Samant patiently helped every student in colouring the articles. Break of 1 hour was given to students, till the break their articles were left to dry up. Few students made tortoise out of coconut shell and few students made hand bucket out of coconut shell. Articles were ready to present in front of faculty. Overall session was creative and interactive, and it ended at 2:00 PM.
