

Celebration of National Technology Day 2023.

Objective:

- To celebrate National Technology Day 2023
- Encouraging Innovation and Research.
- To sensitise participants about India's Technological Achievements and Promoting Indigenous Technology.

Benefit:

- Celebrating the occasion of 'National Technology Day 2023'
- Participants got to know about India's progress in the field of science and technology and indigenous technology and manufacturing.

Description: 11th May 2023 PTVAIM's COEI organised Celebration of National Technology Day 2023. On this occasion participants watched live streaming of PM Narendra Modi to inaugurate programme marking National Technology Day 2023 from 10:30 AM to 12:30 PM. There were 20 participants attended the programme.

Report on Celebration of National Technology Day 2023.

11th May 2023 PTVAIM's COEI organised Celebration of National Technology Day 2023. On this occasion participants watched live streaming of PM Narendra Modi to inaugurate programme marking National Technology Day 2023 from 10:30 AM to 12:30 PM. There were 20 participants attended the programme.

In a momentous event commemorating India's scientific achievements and technological advancements, Prime Minister Narendra Modi is set to inaugurate the National Technology Day programme at Pragati Maidan today.

The National Technology Day holds significant importance in India's history, as it marks the successful test firing of India's first nuclear missile, code-named "Shakti," on May 11, 1998. This landmark achievement made India a proud member of the elite group of nations with nuclear capabilities. Since then, the day is celebrated annually to recognize the contributions

of Indian scientists, researchers, and technologists to the nation's growth and development in various fields.

The event at Pragati Maidan will serve as a platform to showcase India's advancements in cutting-edge technologies, including space exploration, artificial intelligence, renewable energy, biotechnology, and telecommunications. Exhibitions, presentations, and seminars will be organized to highlight the transformative impact of science and technology on the lives of people across the country.

The theme for this year's National Technology Day programme is "Empowering India through Innovation and Technology." It reflects the government's commitment to fostering an innovation-driven ecosystem that encourages indigenous research and development, entrepreneurial initiatives, and strategic partnerships with global technology leaders.

Prime Minister Narendra Modi is expected to deliver the keynote address, where he will emphasize the role of technology in shaping India's future and outline the government's vision for leveraging emerging technologies to address societal challenges. Additionally, he is likely to unveil several initiatives aimed at bolstering the nation's technological capabilities and digital infrastructure.

Distinguished scientists, technologists, academicians, and policymakers from various sectors will also be in attendance to share their insights and experiences, fostering collaboration and knowledge exchange to further propel India's scientific prowess.

Furthermore, in line with the government's commitment to sustainable development and promoting the use of renewable energy, the event itself will be powered by solar energy, showcasing the nation's strides in adopting eco-friendly practices.

As the nation celebrates National Technology Day, it is a time to reflect on India's remarkable journey in the field of science and technology and look forward to a future of innovation, growth, and progress.
