

## Report on E-session on Process of Innovation Development

E-session on Process of Innovation Development was conducted by Dr. Sucheta Pawar and R. Mahabal on 22<sup>nd</sup> December 2020 for 9<sup>th</sup> grade students of Parle Tilak Vidyalyaya English Medium school (SSC). The session sensitized the students regarding the process of Innovation Development with special reference to their respective ideas derived from ideation session. 92 students attended this workshop.

Dr. Pawar discussed the process of innovation with the students. She shared that objective of innovation is always to enhance and simplify lives of users by solving their problems. Innovation for the sake of innovation which does not amount to much can be an academic pursuit but it may not become commercially viable. Also it may not prove to be useful to any number of people. She shared the following slide with them and explained all aspects.

R Mahabal discussed with them a case to understand applicability of the concepts explained by Dr. Pawar. The students were given clear idea that though at their age going through all these stages would not be necessary or relevant to their specific innovation, it was important knowledge which would certainly aid them in their future.

The session was interactive and students asked a lot of questions. It was a fruitful teaching-learning interaction.
