Director's Desk

Dear Aspirants,

With immense pleasure, I welcome you to Parle Tilak Vidyalaya Association's PTVA's Institute of Management. Our Institute is affiliated to the University of Mumbai, approved by All India Council for Technical Education (AICTE), New Delhi and Directorate of Technical Education (DTE), Maharashtra.

Appreciating the importance of education in nation building, our parent trust, Parle Tilak Vidyalaya Association (PTVA) has been strongly active in the field of education since 1921 and has cultivated a laudable value system which has been tested and proven in the real world through the achievements of its illustrious alumni.

The traditional form of Higher Education is making its way to a knowledge based, technology driven learning with a focus on changing social values, attitudes and norms. At the same time, accreditation, innovation and leadership imperatives are

becoming increasingly important for Educational Institutes. Disruption has significantly changed the Education System and is influencing corporate policy & strategy.

Indian economy is going through a major shift and needs more and more professionals who can handle these changes effectively. Student development is an on-going process at PTVA's Institute of Management. A right blend of Core and visiting faculty members work rigorously to hone the professional skills of our students while sensitizing them about ethics, values & governance.

Our strong Industry Connect which allows our students to interact with industry experts through various visiting and guest lectures, makes our students Industry ready and when they step out of our Institute with a degree in Business Management, they are seen as confident, young professionals ready to take on the corporate challenges.

We at PTVA's Institute of Management believe that Management Education is not all about preparing our students to seek a good job, but more importantly it's about preparing them to create jobs in the industry by pursuing their entrepreneurial activities. The encouragement and guidance from our illustrious Advisory Board that comprises stalwarts from diverse fields, a vision to create a better tomorrow and state-of-the-art infrastructure are catalyst in the process of shaping these young minds into budding entrepreneurs.

As said by Malcom X, "Education is the passport to the future, for tomorrow belongs to those who prepare for it today".

We invite you to join us so that we can facilitate your journey towards a promising Tomorrow.

Student Testimonial

Mr. Ajit Deshmukh conducted a Guest Session on 'Start-up' which was quite informative and enlightening. He being an entrepreneur himself gave us many insights regarding the attractiveness of various sectors for budding entrepreneurs. He also conveyed that establishing a start-up was not for the faint-hearted. The journey of an entrepreneur is interspersed with very many failures and few success points during the initial stage. He should have the grit to surge forward with determination and maintain focus if he really believes in his venture.

Shrutika Bhalekar, Junaid Bhat, Sunny Kesarkar, Swapnil Amin, Rohan Jadhav

We, students of PTVA's Institute of Management got an opportunity to attend the conference organised by Bombay Management Association, in association with A1MA whet provided a platform to interact with leading icons in different fields. These icons spoke on their career and experience. The main reason behind this program was to help management students and young managers to find a common link between management of self, choosing a career path and achieving the right work environment.

Satyajit Dhargalkar, Jigar Lakhani, Foram Sakhida, Darshana Pandey, Neelam Joshi, Kavita Bhaghchandani, Snehal Khobragade, Bhavik Shah, Swapnil Bhagwat, Sachin Sable, Sachin Bhelekar, Dhaval Majithia, Vijay Singh

We, students of PTVA's Institute of Management got an opportunity to attend "Business Standard Best B-Schools Project Award 2013" The key learning for us. The key quotes as said by Mr. Ravi Kant, clearly mentioned that Innovation is the only way to tide through the present uncertain time. The Summer Projects are not a mere compliance but a gateway to Corporate World not only in terms of Placements but it also enhances the Institutes credibility to deliver the "Industry ready" material. The platform of mere participation also gave us a great learning experience and further the Institute will be viewed as a promising source for recruitment.
