Dear Mr. Ajinkya.

Thanks for the mail. I did a detailed reading of the Syllabus of MMS stream of post graduate education.

I find the course content is fairly good. I however had a thought that there are two new avenues rising in Managerial capability.

These topics must get a look in. The topics are a) Big Data (includes Data Mining, sourcing etc., b) Analytics in Principles of Management.

Students must be exposed & aware of Strategies that can be drawn up with Detailed study of BIG Data & Analytics.

The rest I feel are quite well covered .

Regards,
Kiran Wagle
