“IFAT India 2023”

Date : 19th October, 2023

IFAT, India's largest trade fair for water, sewage, solid waste, and recycling was organised at Bombay Exhibition Centre at NESCO Centre, Goregaon, Mumbai Market-leading companies in the sector of water and solid waste management showcased a wide range of environmental technologies and services from basic methods to advanced machines. The products span water and waste management, wastewater management, recycling, and energy conservation. The highlight of the day was the Construction & Demolition Waste Management Conference attended by the students. This trade exhibition also served as a platform for idea and knowledge exchange, giving industry professionals, environmental enthusiasts and management students in-depth insights into current trends and developments in the water management and recycling sector and also provided enlightenment regarding sustainable development.
